HIPAA Notice of Privacy Practices

This notice describes how medical information about you may be used and disclosed and how you can get access to this information. Please review the following carefully.

The Health Insurance Portability & Accountability Act of 1996 (HIPAA) is a federal program that requires that all medical records and other individually identifiable health information used or disclosed by us in any form, whether electronically, on paper, or orally, are kept properly confidential. The Act gives you, the patient, significant new rights to understand and control how your information is used. HIPAA provides penalties for covered entities that misuse personal health information.

As required by HIPAA, we have prepared this explanation of how we are required to maintain the privacy of your health information and how we may use and disclose your health information.

We may use and disclose your medical records for several purposes, including treatment, payment, defense of legal matters, to family and friends, and health care operations:

- Treatment includes providing, coordinating, and/or managing health care related services by one or more health care providers. An example of this would include teeth cleaning services.
- Payment includes such activities as obtaining reimbursement for services, confirming coverage, billing or collection activities, and utilization review. An example of this would be sending a claim for your visit to your insurance company for payment.
- Health care operations include the business aspects of running our practice, such as conducting quality assessment and improvement activities, auditing functions, cost-management analysis, and customer service. An example would be an internal quality assessment review. We may also create and distribute de-identified health information by removing all references to individually identifiable information.
- To Your Family and Friends: We may disclose your health information to a family member, friend, or other person to the extent necessary to help with your healthcare or with payment for your healthcare. Before we disclose your health information to these people, we will provide you with an opportunity to object to our use or disclosure. If you are not present, or in the event of your incapacity or an emergency, we will disclose your medical information based on our professional judgment of whether the disclosure would be in your best interest. We may use our professional judgment and our experience with common practice to make reasonable inferences of your best interest in allowing a person to pick up filled prescriptions, medical supplies, X-rays, or other similar forms of health information. We may use or disclose information about you to notify or assist in notifying a person involved in your care, of your location and general condition.

In some limited situations, the law allows or requires us to use/disclose your health information without your permission. Not all of these situations will apply to us; some may never come up at our office at all. Such uses or disclosures are:

- When a state or federal law mandates that certain health information be reported for a specific purpose
- For public health purposes, such as contagious disease reporting, investigation or surveillance, and notices to and from the federal Food and Drug Administration regarding drugs or medical devices
- Disclosures to governmental authorities about victims of suspected abuse, neglect, or domestic violence
- Uses and disclosures for health oversight activities, such as for the licensing of doctors; for audits by Medicare or Medicaid; or for investigation of possible violations of health care laws
- Disclosures for judicial and administrative proceedings, such as in response to subpoenas or orders

of courts or administrative agencies

- Disclosures for law enforcement purposes, such as to provide information about someone who is or is suspected to be a victim of a crime; to provide information about a crime at our office; or to report a crime that happened somewhere else
- Disclosure to a medical examiner to identify a dead person or to determine the cause of death; or to funeral directors to aid in burial; or to organizations that handle organ or tissue donations
- Uses or disclosures for health-related research
- Uses and disclosures to prevent a serious threat to health or safety
- Uses or disclosures for specialized government functions, such as for the protection of the president or high-ranking government officials; for lawful national intelligence activities; for military purposes; or for the evaluation and health of members of the foreign service
- Disclosures of de-identified information
- Disclosures relating to worker's compensation programs
- Disclosures of a "limited data set" for research, public health, or healthcare operations
- Incidental disclosures that are an unavoidable by-product of permitted uses or disclosures
- Disclosures to "business associations" who perform healthcare operations for our office and who commit to respect the privacy of your health information

We may contact you to provide appointment reminders or information about treatment alternatives or other health-related benefits and services that may be of interest to you. If you wish to be omitted from any mailings please provide a written notice. Any other uses and disclosures will be made only with your written authorization. You may revoke such authorization in writing and we are required to honor and abide by that written request, except to the extent that we have already taken actions relying on your authorization.

You have the following rights with respect to your protected health information, which you can exercise by presenting a written request to the Privacy Officer:

- The right to request restrictions on certain uses and disclosures of protected health information, including those related to disclosures to family members, other relatives, close personal friends, or any other person identified by you. We are, however, not required to agree to a requested restriction. If we do agree to a restriction, we must abide by it unless you agree in writing to remove it.
- The right to reasonable requests to receive confidential communications of protected health information from us by alternative means or at alternative locations.
- The right to inspect and copy your protected health information.
- The right to amend your protected health information.
- The right to receive an accounting of disclosures of protected health information.
- The right to obtain a paper copy of this notice from us upon request.

We are required by law to maintain the privacy of your protected health information and provide you with notice of our legal duties and privacy practices with respect to protected health information.

This notice is effective as of July 31, 2015, and we are required to abide by the terms of the Notice of Privacy Practices currently in effect.

We reserve the right to change the terms of our Notice of Privacy Practices and to make the new notice provisions effective for all protected health information that we maintain. We will post and you may request a written copy of a revised Notice of Privacy Practices from this office.

If you think that we have not properly respected the privacy of your health information or that your privacy protections have been violated, you have the right to file a written complaint to us or the U.S.

Department of Health and Human Services, Office for Civil Rights, about violations of the provisions of this notice or the policies and procedures of our office. We will not retaliate against you for filing a complaint. For more information about HIPAA and/or to file a complaint, please call or visit or office or contact:

HIPAA Patient Consent Form

I understand that I have certain rights to privacy regarding my protected health information. These rights are given to me under the Health Insurance Portability and Accountability Act of 1996 (a.k.a. HIPAA or The Healthcare Privacy Act). I understand that by signing this consent, I authorize Ronald Hauptman, DDS and Bahar Rowhani, DDS to use and/or disclose my protected health information to carry out the following:

- Treatment which includes direct and/or indirect treatment by other healthcare providers involved in my treatment.
- Obtaining payment from third party payers, i.e. my dental and/or medical insurance company/companies.
- The day to day healthcare operations of your dental practice.

I have also been informed of, and given the right to review and secure a copy of your Notice of Privacy Practices, which contains a more complete description of the uses and disclosures of my protected personal health information, and my rights under HIPAA. I understand that you reserve the right to change the terms of this notice from time to time and that I may request the most current copy of this notice. I understand that I have the right to request restrictions on how my protected health information is used and disclosed to carry out treatment, payment and healthcare operations, but that you are not required to agree to use these requested restrictions. However, if you do agree, you are then bound to comply with this restriction. I understand that I may revoke this consent, in writing, at any time. However, any use or disclosure that occurred prior to the date I revoke this consent will not be affected.

Oral Cancer Screening Form

Our dental practice continually looks for advances to ensure that we are providing the optimum level of oral healthcare to our patients. We are concerned about oral cancer and look for it in every patient.

One American dies every hour from oral cancer. Late detection of oral cancer is the primary cause of increasing incidence and mortality rates of oral cancer. As with most cancers, age is the primary risk factor for oral cancer. Tobacco and alcohol use are other major predisposing risk factors, but more than 25% of oral cancer victims have no such lifestyle risk factors. Studies also suggest that human papillomavirus (HPV 16/18) plays a role in more than 20% of oral cancer cases. Oral cancer risk by patient profile is as follows:

- INCREASED RISK: Patients age 18-39, sexually active patients (HPV 16/18)
- HIGH RISK: Patients age 40 and older, tobacco users (ages 18-39, any type within 10 years)
- HIGHEST RISK: Patients age 40 and older with lifestyle risk factors (tobacco and/or alcohol use); previous history of oral cancer
